Corporate IT Training Institute • Pune

## ABOUT US

## Technology Learning That Builds Careers

AlgorithmTech IT Solutions Pvt. Ltd. is a professional corporate IT training institute focused on practical, technology-driven learning. Our programs combine fundamentals, modern tools, hands-on practice, real-world projects and career readiness.

### 01 • Practical Learning

Hands-on exercises, labs and implementation-focused learning to convert concepts into practical skills.

### 02 • Modern Technologies

Learn modern AI, cloud, DevOps, full-stack, testing, mobile and infrastructure technologies.

### 03 • Project Mindset

Build realistic applications, workflows and technology solutions while learning.

### 04 • Career Readiness

Develop technical confidence, project portfolios and professional interview skills.

## TECHNOLOGY ECOSYSTEM

## In-Demand Technologies

JAVA

PYTHON

AI / ML

GENAI

LLMs

JENKINS

TERRAFORM

LINUX

SELENIUM

MONGODB

SQL

ANDROID

iOS

LABVIEW

GIT

# Professional Technology Programs

Practical courses designed for modern IT careers

## COURSES

## Explore Our Technology Programs

01

### Data Annotation

4 WEEKS • BEGINNER FRIENDLY

Image, text, audio and video annotation workflows used in AI and machine learning.

AI • ML • DATA • CV • NLP

02

### Prompt Engineering

4 WEEKS • ALL LEVELS

Prompt design, output evaluation and practical generative-AI workflows.

GPT • GEMINI • CLAUDE • LLM • RAG

03

### Software Testing & Automation

12 WEEKS • BEGINNER TO INTERMEDIATE

Manual testing, automation, API testing and SQL with professional QA practices.

SELENIUM • TESTNG • CYPRESS • API • SQL

04

### App Development

16 WEEKS • INTERMEDIATE

Modern mobile applications with UI, APIs, databases and deployment experience.

FLUTTER • REACT • KOTLIN • FIREBASE • API

05

### LabVIEW Training

8 WEEKS • BEGINNER TO ADVANCED

Graphical programming for automation, instrumentation, data acquisition and test systems.

LABVIEW • DAQ • NI • VISA • AUTOMATION

06

### Android & iOS Development

16 WEEKS • INTERMEDIATE

Mobile application development for Android and iOS using modern practices.

ANDROID • IOS • KOTLIN • SWIFT • API

07

### Agentic AI

8 WEEKS • ADVANCED

Build autonomous AI agents capable of reasoning, planning, tool use and multi-step workflows.

AGENTS • LLM • RAG • MCP • TOOLS

08

### DevOps & Cloud Engineering

12 WEEKS • INTERMEDIATE

CI/CD, AWS, Docker, Kubernetes, infrastructure, monitoring and cloud delivery.

AWS • DOCKER • K8S • JENKINS • TERRAFORM

09

### Full-Stack Web Development with MERN

16 WEEKS • BEGINNER TO INTERMEDIATE

Build scalable web applications using MongoDB, Express, React and Node.js.

MONGODB • EXPRESS • REACT • NODE • REST

10

### Linux Administration

8 WEEKS • BEGINNER TO INTERMEDIATE

Linux commands, shell scripting, permissions, networking, servers and troubleshooting.

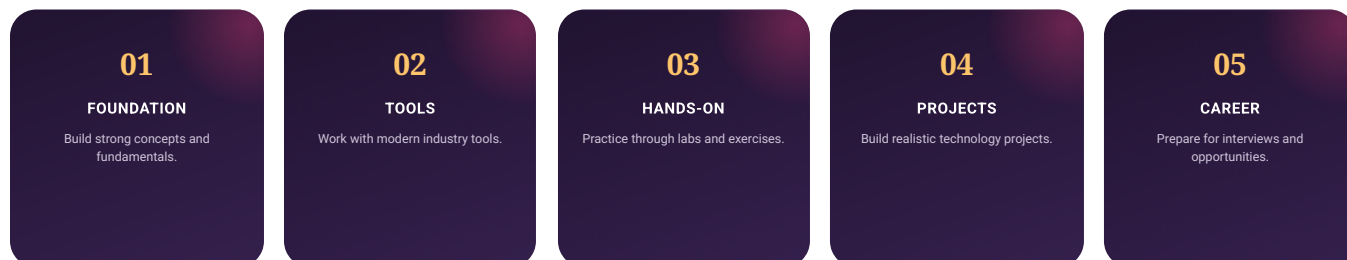

LINUX • BASH • SSH • GIT • SERVER

# From Learning To Career

A structured learning model focused on practical outcomes

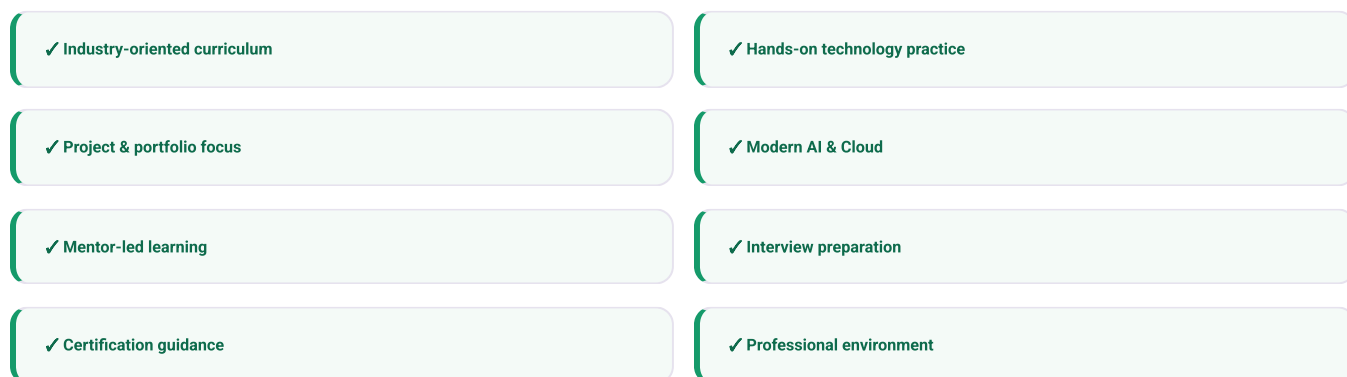

## LEARNING MODEL

### Learn • Practice • Build • Grow

## WHY ALGORITHMTECH

### Learn. Build. Grow.
